Attorney for Applicants

PETITION UNDER 37 C.F.R. § 1.137(a)
TO REVIVE AN UNAVOIDABLY ABANDONED APPLICATION

Mail Stop Petition
Commissioner for Patents
P.O. BOX 1450
Arlington, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. § 1.137(a), Applicants hereby petition the Commissioner for Patents to revive the above identified application that went unavoidably abandoned due to failure to respond to a communication that was received by Applicants' attorney after its final (30 day) due date. This Petition is accompanied by the following supporting documents :

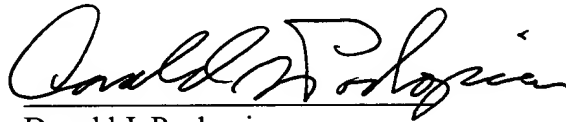

- (1) The reply(s) required to the outstanding Office action or notice
 - (i) Amendment After Payment of the Issue Fee; and
 - (ii) Submission Of Corrected Drawings;
- (2) A check in the amount of \$1500 to cover the petition fee under 37 C.F.R. § 1.17(l);

- (3) A statement of facts, showing that the entire delay in filing the required reply until the piling of a grantable petition was unavoidable; and
- (4) Declaration of Attorney, Donald J. Pochopien, as to the facts surrounding that unavoidable delay.

Respectfully submitted,

MCANDREWS, HELD & MALLOY, LTD.

STATEMENT OF FACTS UNDER 37 C.F.R. § 1.137(a)
TO CORROBORATE THAT THE ENTIRE DELAY IN FILING THE REPLY
UP TO THE FILING OF A GRANTABLE PETITION WAS
UNAVOIDABLE

Mail Stop Petition
Commissioner for Patents
P.O. BOX 1450
Arlington, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. § 1.137(a), Applicants hereby Provide the Commissioner for Patents with their statement of facts to corroborate Applicants' claim that "the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unavoidable."

1. The undersigned attorney of record, Donald J. Pochopien, is a partner at the law offices of McAndrews held & Malloy Ltd. and registered (Reg. No. 32,167) to practice

before the USPTO. He is also the attorney and person at McAndrews Held & Malloy that is most familiar with the facts surrounding the prosecution of this application. [Pochopien Declaration at ¶1.]

2. At the offices of McAndrews Held & Malloy Ltd. (MHM) it is the business practice in the mail room that “[o]ne individual will date stamp (on the back of the envelope) all incoming mail with the exception of magazines and post cards.” Another individual sorts the date stamped mail for delivery. Thereafter, “[t]he prosecution mail (anything from the USPTO) will be delivered [to prosecution docketing] immediately after delivering Accounting’s mail.” Finally, it is the business practice at McAndrews Held & Malloy that mail delivery begin “no later than 10:00 am”:

After date stamping and sorting the U.S. mail, ARO’s internal; messenger service will deliver all mail. Delivery of the mail will begin first to the Accounting Department, then to the Prosecution [docketing] Dept. and then to the employees of MHM no later than 10:00 am. ARO should send an e-mail to “Entire Firm” if the mail delivery is delayed.

[Exhibit A: Excerpt from Procedure Manual at MHM on “U.S. Mail Services, Incoming;” Pochopien Declaration at ¶2; emphasis in original]

3. For the above-identified application, the undersigned attorney signed the issue fee documents and caused the issue fee to be paid and transmitted by mail to the USPTO on December 14, 2004. [Pochopien Declaration at ¶3.]

4. On December 15, 2004, unbeknownst to the undersigned attorney, the attached Official Communication was allegedly transmitted by mail to the undersigned attorney at the offices of McAndrews Held & Malloy, Ltd. [See Exhibit B: Official Communication (FORM PTO-1631) dated 12/15/04 at page 1; Pochopien Declaration at ¶4.]

5. On page 2, the Official Communication states that the drawings received on 08/29/01 have an inconsistency between the Figures 1A, 1F and the Brief Description of the Drawings, and that Applicant is required to correct this inconsistency “within a time period of **ONE MONTH or THIRTY (30) DAYS, whichever is longer**, from the mailing date of this Notice” and that “**NO EXTENSION OF THIS TIME PERIOD MAY BE GRANTED UNDER EITHER 37 CFR 1.136 (a) OR (b).**” [See Exhibit B: Official Communication dated 12/15/04 at page 2.]

6. Based upon the mailing date of December 15, 2004 that is on the face of the Official Communication, the final **UNEXTENDABLE** date for Response to the Official Communication was January 15, 2005. [See Exhibit B: Official Communication dated 12/15/04 at pages 1 and 2.]

7. However, on January 18, 2005, the Official Communication dated December 15, 2004 was first received in the mail room of McAndrews Held & Malloy Ltd. [Pochopien Declaration at ¶7.]

8. As evidenced by the date stamp of “RECEIVED JAN 18 2005” on the face of the Official Communication of December 15, 2004, the Official Communication was first received and seen by the docketing department at McAndrews Held & Malloy on January 18, 2005. [Exhibit B: date stamp on the Official Communication at page 1; Pochopien Declaration at ¶ 8; and Exhibit C: Listings of MHM Docketing procedures.]

9. As part of their processing of the Official Communication, the docketing department at McAndrews Held & Malloy entered the response due date of “Jan 15, 2005” on the face of the Official Communication and indicated that it was “Final.” [Exhibit B: date on lower right of the Official Communication; Exhibit C: Listings of MHM Docketing procedures; Pochopien Declaration at ¶9.]

10. On the afternoon of January 18 2005, Helen Hughes, the supervisor of the docketing paralegals, personally brought the file for this application to the undersigned attorney and explained that the docketing department had just received the Official Communication of 12/15/04 on today's date (01/18/05) and that the unextendable response date had already passed. [Pochopien Declaration at ¶ 10.]

11. On the next day (Wednesday, January 19, 2005), the undersigned attorney informed the assignee and client, Regeneration Technologies Inc., by e-mail what had occurred, advised them of two different ways to proceed (either refile the application off of a co-pending application or via the more costly petition to revive the abandoned application) along with the costs, and asked them to advise me on how they would like to proceed. [Exhibit D: E-mail from Donald Pochopien (MHM) to Maurie Baker (RTI) of 01/19/05 at 2:38 PM; Pochopien Declaration at ¶11.]

12. On that same day (Wednesday, January 19, 2005), RTI responded back to the undersigned attorney in an e-mail and inquired about time for the PTO to act and costs. [Exhibit E: E-mail from Maurie Baker (RTI) to Donald Pochopien (MHM) of 01/19/05 at 3:53 PM.]

13. Later that same day (Wednesday, January 19, 2005), the undersigned attorney replied to RTI by e-mail and informed them where the additional costs arise in filing the petition to revive. Because an answer was not immediately forthcoming, the undersigned attorney also informed RTI that there is a diligence requirement and that we must proceed diligently if we wish to file a petition to revive the application. [Exhibit F: E-mail from Donald Pochopien (MHM) to Maurie Baker (RTI) of 01/19/05 at 4:01 PM; Pochopien Declaration at ¶13.]

14. On the morning of the next day (Thursday, January 20, 2005), Maurie Baker of RTI advised the undersigned attorney that she would have to present the options to upper

management at RTI to obtain a decision. [The need for an upper management decision is based upon the Sorbanes-Oxley law recently passed by Congress.] She also inquired about the time frames for each of the options and my time for acting. [Exhibit G: E-mail from Maurie Baker (RTI) to Donald Pochopien (MHM) of 01/20/05 at 8:49 AM; Pochopien Declaration at ¶14.]

15. That same morning (Thursday, January 20, 2005), the undersigned attorney responded by e-mail within the hour and advised RTI, based upon his experience, of his best estimates of the time for response from the PTO for each of the two options, likelihood of success for each option, and the time that he would need to draft the appropriate filings. [Exhibit H: E-mail from Donald Pochopien (MHM) to Maurie Baker (RTI) of 01/20/05 at 9:21 PM; Pochopien Declaration at ¶15.]

16. On the following Monday morning (January 24, 2005), RTI elected a course of action and authorized the undersigned attorney to proceed with reviving this unavoidably abandoned application. [Exhibit I: E-mail from Maurie Baker (RTI) to Donald Pochopien (MHM) of 01/24/05 at 10:58 AM; Pochopien Declaration at ¶16.]

17. On Monday, January 24, 2005, the undersigned attorney pushed other work aside and drafted the responses required under the Official Communication. Specifically, the undersigned attorney drafted the "Submission of Corrected Drawings" and the "Amendment After Payment of the Issue Fee." [Pochopien Declaration at ¶ 17.]

18. On Tuesday, January 25, 2005, the undersigned attorney pushed other work aside and drafted the "Petition Under 37 C.F.R. 1.137(a) To Revive An Unavoidably Abandoned Application" and began drafting the Statement of Facts collecting facts drafting this document (**"STATEMENT OF FACTS UNDER 37 C.F.R. § 1.137(a) TO CORROBORATE THAT THE ENTIRE DELAY IN FILING THE REPLY UP TO THE FILING OF A GRANTABLE PETITION WAS UNAVOIDABLE"**).

19. On Wednesday, January 26, 2005, the undersigned attorney continued drafting this document and began drafting the Pochopien Declaration that provides the underlying factual support for many of the statements made herein. [Pochopien Declaration at ¶19.]

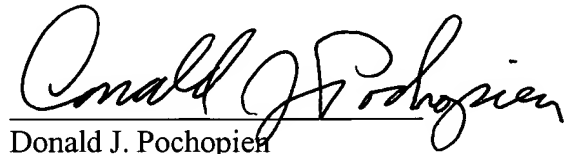

20. On Thursday, January 27, 2005, the undersigned attorney completed the Pochopien Declaration and this "Statement of Facts . . ." and sent both documents along with the proposed responses, as e-mail attachments, to the assignee RTI for their review. [Pochopien Declaration at ¶ 20; Exhibit J: E-mail from Donald Pochopien to Benjamin Sanders (RTI) on 01/27/05 at 10:06AM.]

21. For all these reasons, the undersigned attorney and the assignee at all times acted diligently, and that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unavoidable.

Respectfully submitted,

MCANDREWS, HELD & MALLOY, LTD.

should never approach MHM employees and ask them if they can go to trial with them.

Expectations

Anticipate long hours under pressure. Expectations include knowledge of copy quality and timeliness. Faxes will need to be distributed as quickly as possible. Supplies must be monitored, re-ordered, re-stocked and readily available. Messenger services may be requested. You must keep a meter reading of all copies made for billing purposes. Oftentimes, you will be asked to re-stock refrigerators, snacks, medicinal supplies, etc. (depending on the particular circumstances). You may get requests from attorneys, paralegals, secretaries, or others and those requests will vary greatly. Be prepared for the unusual and unexpected. Paralegals often attend trial during the day and will ask for copy jobs to be completed in their absence. If the situation becomes overwhelming, call The MHM Manager and ask for some advice or additional assistance.

Expenses

A cash advance will be given to you by the firm for miscellaneous expenses. The amount will be determined according to length of stay and anticipated needs and will be determined and approved by a MHM Manager or other MHM employee. Reasonable expenses include an occasional book or magazine or local entertainment such as a movie but this should not be abused. Other expenses will include food, and personal hygiene products such as toothpaste. You may have to provide tips to service persons but oftentimes tips are built-in to the hotel cost so you must seek guidance and direction from an attorney, paralegal or secretary. Occasionally you will be requested to purchase food or sundry items. You will be held accountable for the cash advance you are given so it is imperative that you keep all receipts and track all cash transactions. Upon your return to the office, you will be required to complete an expense report. If you should require more cash prior to or before your return, please contact the MHM Manager for instruction. If you should spend any personal money for reasonable expenses, you will be reimbursed.

L. U.S. MAIL SERVICES

Incoming

U.S. Mail is delivered Monday through Friday by "On the Fly" between 7:45 a.m. and 8:45 a.m. The mail will be brought in one or more locked bag(s). The "On the Fly" messenger will be given unlocked replacement bag(s). The key to unlock the bags can be obtained from any ARO Manager. Mail should never be opened. The two individuals who process the incoming US Mail will sign a log sheet after date stamping and sorting. The mail will be unlocked in the presence of two or more ARO personnel. One individual will date stamp (on the back of the envelope) all incoming mail with the exception of magazines and postcards. The other individual will sort the mail by three areas - 35th floor, 34th floor east, and 34th floor west. Any instruction for special handling whether permanent or

temporary should be noted on the mail cart(s). Unidentified mail, foreign mail and checks are delivered to Accounting in a locked bag. If no one is present in Accounting, the bag may be given to MHM Management (Hugh Washburn, Jim Boettger, Ann-Marie Jensen or Jan Wiesner). Accounting's locked bag of mail will be the first mail delivered. The prosecution mail (anything from the USPTO) will be delivered immediately after delivering Accounting's mail. Returned mail should be given to Ann-Marie Jensen unless the sender's initials or name is indicated in the return address portion in which case the mail would be given directly to the sender. After date stamping and sorting the U.S. Mail, ARO's internal messenger service will deliver all mail. Delivery of mail will begin first to the Accounting Department, then to the Prosecution Dept, and then to the employees of MHM no later than **10:00 a.m.** ARO should send an e-mail to "Entire Firm" if the mail delivery is delayed.

Outgoing

Outgoing U.S. Mail can be either dropped off in the ARO Center on the 34th Floor or will be retrieved from the designated bins located throughout the firm. All outgoing mail should be received and processed in the mailroom no later than **5:00 p.m.** The mail must be checked to make sure it is sealed, has proper postage and international stamp. A messenger from the Building Messenger Center retrieves the mail between 5:15 and 5:30 and holds it at the Building Messenger Center to be picked up by "On the Fly" courier who delivers it to the U.S. Post Office. All international airmail packages weighing more than three (3) pounds must be delivered to a U.S. Postal agent in person. The copy center must be informed by **5:00 p.m.** if such service is required.

Certified Mail

If proof of mailing is required for the certified mail, please complete the necessary forms for the Postal Service. Blank copies of those forms are available in the mailroom. The copy center must be informed by **5:00 p.m.** if such service is required.

Express Mail

Express Mail Runs will be completed by a CSR in the evening at **6:00 p.m.** The client should complete the necessary forms for the Postal Service and inform ARO by **5:30 p.m.** If such service is required; however, this is usually a daily occurrence. Express mail must be received by the U.S. Post Office by **6:30 p.m.** to guarantee next-day delivery. The Express Mail should have a client matter number and the name or initials of the sender for billing purposes. This information is recorded daily in a binder located by the mail machine in the copy center. Cab fare for express mail delivery to the Post Office is provided by the MH&M copy center manager. Ask for a cab fare receipt and, upon return, submit the receipt and change to the MH&M copy center manager or ARO manager on duty. The Post Office is located at the corner of Canal and Harrison (433 West Harrison). Take the escalators up to the second level – you may have to stand in line. Proceed to the teller, give them the envelope(s), they will process them and

UNDER SECRETARY OF COMMERCE FOR INTELLECTUAL PROPERTY AND
DIRECTOR OF THE UNITED STATES PATENT AND TRADEMARK OFFICE

NOTICE OF DRAWING INCONSISTENCY WITH SPECIFICATION

The drawings filed 8/29/01 have been received. However, an inconsistency exists between the drawings and the Brief Description of the Drawings in the specification.

Figures 1A are listed in the Brief Description of the Drawings in the specification but not contained in the Drawings.

Figures 1E are contained in the Drawings but not listed in the Brief Description of the Drawings in the specification.

Applicant is required to correct the above-noted inconsistency within a time period of **ONE MONTH or THIRTY (30) DAYS, whichever is longer**, from the mailing date of this Notice, or within the time remaining in the time period set forth in the Notice of Allowability (Form PTOL-37) to file corrected drawings, whichever is longer. **NO EXTENSION OF THIS TIME PERIOD MAY BE GRANTED UNDER EITHER 37 CFR 1.136 (a) OR (b)**

Failure to correct the above noted inconsistency will result in abandonment of the application.

The file will be held in the Publishing Division to await the correction of the inconsistency.

DOCKETING Checklist

DAILY

- ☐ **Express Mail Receipts** – match receipts with file, notify High Density of files sent back to Secretary
- ☐ **Daily Docket (Patent & TM)** – Patent: distribute to KKM, NC, SM, CB, CLB. TM: distribute to MC
Docket is run for following periods
Monday – from previous Sat thru Tuesday
Tuesday – Tuesday thru Wednesday
Wednesday – Wednesday thru Thursday
Thursday – Thursday thru Friday
Friday – Friday thru next Monday
- ☐ **Daily JMM Docket - Email** to X-team
Monday – from previous Saturday thru Tuesday
Tuesday – Monday thru Wednesday
Wednesday – Tuesday thru Thursday
Thursday – Wednesday thru Friday
Friday – Thursday thru next Monday
- ☐ **Incoming Mail** – open, date stamp and docket all incoming mail & faxes. Email incoming mail list to Fileroom
- ☐ **Missing Mail List** – update missing mail list with previous days mail and email to Fileroom
- ☐ **Outgoing Mail** – check and docket all USPTO mail
- ☐ **Daily Final Actions Due Report (Patent & TM)**– email to prosecution
Monday – run from previous Saturday to Monday
Tuesday to Friday – run for current day

WEEKLY

- ☐ **Weekly Docket** - every Friday run docket report for Saturday thru to following Sunday.
Print and Distribute via ARO to each attorney/secretary.
Distribute via EMAIL to: Don Pochopien
Janet McNicholas (and team)

MONTHLY

- ☐ **Monthly Docket** - run on (or as near as) 28th of each month. Run for period 1st day of next month to the 31st day of the 2nd month (so covers two month period).
Print and distribute via ARO to each attorney & secretary.
Distribute via EMAIL to: Jan Wiley (Ed Remus/J Barich)
Betsy Henschen (George Wheeler)
Robert Fieseler

i Maurie:

A problem arose in this application in which the claims were allowed and in which the issue fee was paid on 12/14/04. On 12/15/04, after the payment of the issue fee, the PTO objected for the first time to the original figures filed in 2001. I suspected that the Figures might be an issue because the latter were hand drawn. In the meantime, I ordered formal drawings from a draftsman for the newly filed 13879US02 application. We have these in house.

On 01/18/05 (yesterday), our docketing department first received the written objection dated 12/15/04 (See the attachment). I do not know how or why it took so long to arrive. However, it only had a 30 day period in which to respond that was not extendable. Hence, the application has gone abandoned. If the communication would have been dated 12/16, we would have lucked out with the weekend and MLK holiday, and could have filed it yesterday.

Course of Action:

We could draft a petition and/or Request to reinstate an unintentionally abandoned application with submission of new figures and an amendment under 1.312 correcting the numbering in the Brief Description of the Figures.

Alternatively, we have a pending continuation application. We could file another continuation application with a preliminary amendment and the new Figures. I believe that the refiling would be more cost effective. In the preliminary amendment, we could advise the Examiner as to what had occurred. I expect that we would get a Notice of Allowance if we get the same Examiner.

How should we proceed?

Donald

ENVELOPE.TXT

Don,

I will need to get some internal guidance on this one to get you a definitive answer. I have two questions/comments for you in the meantime...

(1) Do you think that the first option you mention below (petition to revive an unintentionally abandoned application) would get us the patent sooner? Based on my experience, I would definitely say yes, as a new filing, even a continuation, can linger without examination for at least a year. Petitions can be slow, but not that slow usually. Also we take the chance of getting a different examiner and/or the examiner changing their mind.

(2) I am a little confused on the cost issue. It appears to me that the petition route would cost much less in PTO fees (a little more than half as much), although maybe it is a lot more work for you guys and that makes the difference. Sorry but I don't know that much about your cost structure.

If you could provide me your input, that would be really helpful.

Thanks,

Subject: RE: 13879US01

Hi Maurie:

The additional costs would relate to the cost of drafting the petition, and documenting our internal docketing as part of the petition. If we file it with an IDS up front, it seems to go faster.

There is a diligence requirement or reviving. Hence, we also need to establish that MHM and RTI acted diligently in seeking revival once we learned of the abandonment.

Donald

Subject: FW: 13879US01

Hi Maurie:

A problem arose in this application in which the claims were allowed and in which the issue fee was paid on 12/14/04. On 12/15/04, after the payment of the issue fee, the PTO objected for the first time to the original figures filed in 2001. I suspected that the Figures might be an issue because the latter were hand drawn. In the meantime, I ordered formal drawings from a draftsman for the newly filed 13879US02 application. We have these in house.

On 01/18/05 (yesterday), our docketing department first received the written objection dated 12/15/04 (See the attachment). I do not know how or why it took so long to arrive. However, it only had a 30 day period in which to respond that was not extendable. Hence, the application has gone abandoned. If the communication would have been dated 12/16, we would have lucked out with the weekend and MLK holiday, and could have filed it yesterday.

Course of Action:

We could draft a petition and/or Request to reinstate an unintentionally abandoned application with submission of new figures and an amendment under 1.312 correcting the numbering in the Brief Description of the Figures.

Alternatively, we have a pending continuation application. We could file another continuation application with a preliminary amendment and the new Figures. I believe that the refiling would be more cost effective. In the preliminary amendment, we could advise the Examiner as to what had occurred. I expect that we would get a Notice of Allowance if we get the same Examiner.

How should we proceed?

Donald

ENVELOPE.TXT

Yes, that all makes sense. Thanks a lot for the further info.

So, based on the requirements you mentioned, do you also think that it would take just as long to go this route (as opposed to a new filing)?

I know that one of the factors in the decision will be how quickly can we get the patent granted.

I am just trying to get all of our options fully laid out to present to upper management.

Lastly, is there a time frame for this decision? Please let me know.

Thanks again,

Hi Maurie:

The additional costs would relate to the cost of drafting the petition, and documenting our internal docketing as part of the petition. If we file it with an IDS up front, it seems to go faster.

There is a diligence requirement or reviving. Hence, we also need to establish that MHM and RTI acted diligently in seeking revival once we learned of the abandonment.

Don,

I will need to get some internal guidance on this one to get you a definitive answer. I have two questions/comments for you in the meantime...

(1) Do you think that the first option you mention below (petition to revive an unintentionally abandoned application) would get us the patent sooner? Based on my experience, I would definitely say yes, as a new filing, even a continuation, can linger without examination for at least a year. Petitions can be slow, but not that slow usually. Also we take the chance of getting a different examiner and/or the examiner changing their mind.

(2) I am a little confused on the cost issue. It appears to me that the petition route would cost much less in PTO fees (a little more than half as much), although maybe it is a lot more work for you guys and that makes the difference. Sorry but I

don't know that much about your cost structure.
If you could provide me your input, that would be really helpful.
Thanks,

Hi Maurie:

Petitions in the PTO take 3 to 6 months before being granted. There is a 98% likelihood that it would be granted. The new continuation application would take 3-6 months to get a response from the PTO. There is about a 80% likelihood that there would be a first action allowance. The difference is that it would cost about \$2,000-3,000 to prepare the petitions. I could file the new application today. It would take me until next week to prepare the petitions and file them.

Don,
This is the unintentionally abandoned case.
After meeting with the management here and discussing the different options for this case, we have decided to go the petition route. I realize it will take you some time to get the petition together. Please give me an idea of when to expect it, if you can.
Also, we would like to have a chance to look at the petition before you file it please.
Thank you very much,

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail, postage prepaid, in an envelope addressed to: Mail Stop Petition, Commissioner for Patents, P.O. BOX 1450, Arlington, VA 22313-1450, on this date:

January 27, 2005

**Donald J. Pochopien
Registration No. 32,167
Attorney for Applicants**

**POCHOPIEN DECLARATION
PROVIDING FACTS SUPPORTING THE STATEMENT UNDER 37 C.F.R. § 1.137(a)
THAT THE ENTIRE DELAY IN FILING THE REPLY
UP TO THE FILING OF A GRANTABLE PETITION WAS
UNAVOIDABLE**

Mail Stop Petition
Commissioner for Patents
P.O. BOX 1450
Arlington, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. § 1.137(a), Applicants' undersigned attorney, Donald J. Pochopien, hereby provide the Commissioner for Patents with his statement of facts to corroborate Applicants' claim that "the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unavoidable," and in doing so declares as follows:

1. I, Donald J. Pochopien, am a partner at the law offices of McAndrews held & Malloy Ltd. and am registered (Reg. No. 32,167) to practice before the USPTO. I am also the undersigned attorney of record and the attorney and person at McAndrews Held & Malloy that is most familiar with the facts surrounding the prosecution of this application.

2. At the offices of McAndrews Held & Malloy Ltd. (MHM) it is the business practice in the mail room that “[o]ne individual will date stamp (on the back of the envelope) all incoming mail with the exception of magazines and post cards.” Another individual sorts the date stamped mail for delivery. Thereafter, “[t]he prosecution mail (anything from the USPTO) will be delivered [to prosecution docketing] immediately after delivering Accounting’s mail.” Finally, it is the business practice at McAndrews Held & Malloy that mail delivery begin “no later than 10:00 am”:

After date stamping and sorting the U.S. mail, ARO’s internal; messenger service will deliver all mail. Delivery of the mail will begin first to the Accounting Department, then to the Prosecution [docketing] Dept. and then to the employees of MHM no later than 10:00 am. ARO should send an e-mail to “Entire Firm” if the mail delivery is delayed.

[Exhibit A: Relevant pages from Procedure Manual at MHM on “U.S. Mail Services, Incoming;” emphasis in original]

3. For the above-identified application, the undersigned attorney signed the issue fee documents and caused the issue fee to be paid and transmitted by mail to the USPTO on December 14, 2004.

4. On December 15, 2004, unbeknownst to the undersigned attorney, the attached Official Communication was allegedly transmitted by mail to the undersigned attorney at the offices of McAndrews Held & Malloy, Ltd. [See Exhibit B: Official Communication (FORM PTO-1631) dated 12/15/04 at page 1.]

5. On page 2, the Official Communication states that the drawings received on 08/29/01 have an inconsistency between the Figures 1A, 1F and the Brief Description of the Drawings, and that Applicant is required to correct this inconsistency “within a time period of **ONE MONTH or THIRTY (30) DAYS, whichever is longer**, from the mailing date of this Notice” and that “**NO EXTENSION OF THIS TIME PERIOD MAY BE GRANTED UNDER EITHER 37 CFR 1.136 (a) OR (b).**” [See Exhibit B: Official Communication dated 12/15/04 at page 2.]

6. Based upon the mailing date of December 15, 2004 that is on the face of the Official Communication, the final **UNEXTENDABLE** date for Response to the Official Communication was January 15, 2005. [See Exhibit B: Official Communication dated 12/15/04 at pages 1 and 2.]

7. However, based upon the business practices of McAndrews Held & Malloy, as recited in ¶2 herein, it is believed that on January 18, 2005, the Official Communication dated December 15, 2004 was first received in the mail room of McAndrews Held & Malloy Ltd.

8. As evidenced by the date stamp of “RECEIVED JAN 18 2005” on the face of the Official Communication of December 15, 2004, the Official Communication was first received and seen by the docketing department at McAndrews Held & Malloy on January 18, 2005. [Exhibit B: Official Communication at page 1; and Exhibit C: Listings of Docketing procedures.]

9. As part of their processing of the Official Communication, the docketing department at McAndrews Held & Malloy entered the response due date of “Jan 15, 2005” on the face of the Official Communication and indicated that it was “Final.” [See Exhibit B: Official Communication; and Exhibit C: Listing of Docketing procedures.]

10. On the afternoon of January 18 2005, Helen Hughes, the supervisor of the docketing paralegals, personally brought the file for this application to me and explained to me that the docketing department had just received on that date the Official Communication dated 12/15/04, and that the unextendable response date of 01/15/05 had already passed.

11. On the next day (Wednesday, January 19, 2005), I informed the assignee and client, Regeneration Technologies Inc. (RTI) , by e-mail what had occurred, advised them of two different ways to proceed (either refiling the application off of a co-pending application or the more costly petition to revive the unavoidably abandoned application), along with an estimate of the costs, and asked them to advise me on how they would like to proceed. [Exhibit D: E-mail from Donald Pochopien (MHM) to Maurie Baker (RTI) of 01/19/05 at 2:38 PM.]

12. On that same day (Wednesday, January 19, 2005), RTI responded back to me in an e-mail and inquired about time for the PTO to act and asked for an explanation of the costs. [Exhibit E: E-mail from Maurie Baker (RTI) to Donald Pochopien (MHM) of 01/19/05 at 3:53 PM.]

13. Later that same day (Wednesday, January 19, 2005), I replied to RTI by e-mail and informed them where the additional costs arise in filing the petition to revive. Because an answer was not immediately forthcoming, I also informed RTI that there is a diligence requirement and that we must proceed diligently if we wish to file a petition to revive the application. [Exhibit F: E-mail from Donald Pochopien (MHM) to Maurie Baker (RTI) of 01/19/05 at 4:01 PM.]

14. On the morning of the next day (Thursday, January 20, 2005), Maurie Baker of RTI advised me that she would have to present the options to upper management at RTI to obtain a decision. [The need for an upper management decision is based upon the Sarbanes-Oxley law passed by Congress in 2002.] She also inquired about the time frames for each of

the options and my time for acting. [Exhibit G: E-mail from Maurie Baker (RTI) to Donald Pochopien (MHM) of 01/20/05 at 8:49 AM.]

15. That same morning (Thursday, January 20, 2005), I responded by e-mail within the hour and advised RTI, based upon my experience, of my best estimates of the time for response from the PTO for each of the two options, the likelihood of success for each option, and the time that I would need to draft the appropriate filings. [Exhibit H: E-mail from Donald Pochopien (MHM) to Maurie Baker (RTI) of 01/20/05 at 9:21 PM.]

16. On the following Monday morning (January 24, 2005), RTI authorized me to proceed with petitioning to revive this unavoidably abandoned application. [Exhibit I: E-mail from Maurie Baker (RTI) to Donald Pochopien (MHM) of 01/24/05 at 10:58 AM.]

17. On Monday, January 24, 2005, I pushed other work aside and drafted the responses required under the Official Communication. Specifically, I drafted the "Submission of Corrected Drawings" and the "Amendment After Payment of the Issue Fee."

18. On Tuesday, January 25, 2005, I pushed other work aside and drafted the "Petition Under 37 C.F.R. 1.137(a) To Revive An Unavoidably Abandoned Application" and began collecting facts and drafting the Statement of Facts ("**STATEMENT OF FACTS UNDER 37 C.F.R. § 1.137(a) TO CORROBORATE THAT THE ENTIRE DELAY IN FILING THE REPLY UP TO THE FILING OF A GRANTABLE PETITION WAS UNAVOIDABLE**").

19. On Wednesday, January 26, 2005, I continued drafting this document and began drafting the Pochopien Declaration that provides the underlying factual support for many of the statements made herein.

20. On Thursday, January 27, 2005, I completed the Pochopien Declaration and this "Statement of Facts . . ." and sent both documents along with the proposed responses, as

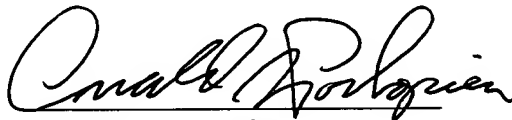

e-mail attachments, to the assignee RTI for their review. [Exhibit J: E-mail from Donald Pochopien to Benjamin Sanders (RTI) on 01/27/05 at 10:06AM.]

21. For all these reasons, the undersigned attorney believes that he and RTI at all times acted diligently, and that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unavoidable.

22. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,

By

Donald J. Pochopien

should never approach MHM employees and ask them if they can go to trial with them.

Expectations

Anticipate long hours under pressure. Expectations include knowledge of copy quality and timeliness. Faxes will need to be distributed as quickly as possible. Supplies must be monitored, re-ordered, re-stocked and readily available. Messenger services may be requested. You must keep a meter reading of all copies made for billing purposes. Oftentimes, you will be asked to re-stock refrigerators, snacks, medicinal supplies, etc. (depending on the particular circumstances). You may get requests from attorneys, paralegals, secretaries, or others and those requests will vary greatly. Be prepared for the unusual and unexpected. Paralegals often attend trial during the day and will ask for copy jobs to be completed in their absence. If the situation becomes overwhelming, call The MHM Manager and ask for some advice or additional assistance.

Expenses

A cash advance will be given to you by the firm for miscellaneous expenses. The amount will be determined according to length of stay and anticipated needs and will be determined and approved by a MHM Manager or other MHM employee. Reasonable expenses include an occasional book or magazine or local entertainment such as a movie but this should not be abused. Other expenses will include food, and personal hygiene products such as toothpaste. You may have to provide tips to service persons but oftentimes tips are built-in to the hotel cost so you must seek guidance and direction from an attorney, paralegal or secretary. Occasionally you will be requested to purchase food or sundry items. You will be held accountable for the cash advance you are given so it is imperative that you keep all receipts and track all cash transactions. Upon your return to the office, you will be required to complete an expense report. If you should require more cash prior to or before your return, please contact the MHM Manager for instruction. If you should spend any personal money for reasonable expenses, you will be reimbursed.

L. U.S. MAIL SERVICES

Incoming

U.S. Mail is delivered Monday through Friday by "On the Fly" between **7:45 a.m. and 8:45 a.m.** The mail will be brought in one or more locked bag(s). The "On the Fly" messenger will be given unlocked replacement bag(s). The key to unlock the bags can be obtained from any ARO Manager. Mail should never be opened. The two individuals who process the incoming US Mail will sign a log sheet after date stamping and sorting. The mail will be unlocked in the presence of two or more ARO personnel. One individual will date stamp (on the back of the envelope) all incoming mail with the exception of magazines and postcards. The other individual will sort the mail by three areas - 35th floor, 34th floor east, and 34th floor west. Any instruction for special handling whether permanent or

temporary should be noted on the mail cart(s). Unidentified mail, foreign mail and checks are delivered to Accounting in a locked bag. If no one is present in Accounting, the bag may be given to MHM Management (Hugh Washburn, Jim Boettger, Ann-Marie Jensen or Jan Wiesner). Accounting's locked bag of mail will be the first mail delivered. The prosecution mail (anything from the USPTO) will be delivered immediately after delivering Accounting's mail. Returned mail should be given to Ann-Marie Jensen unless the sender's initials or name is indicated in the return address portion in which case the mail would be given directly to the sender. After date stamping and sorting the U.S. Mail, ARO's internal messenger service will deliver all mail. Delivery of mail will begin first to the Accounting Department, then to the Prosecution Dept, and then to the employees of MHM no later than 10:00 a.m. ARO should send an e-mail to "Entire Firm" if the mail delivery is delayed.

Outgoing

Outgoing U.S. Mail can be either dropped off in the ARO Center on the 34th Floor or will be retrieved from the designated bins located throughout the firm. All outgoing mail should be received and processed in the mailroom no later than 5:00 p.m. The mail must be checked to make sure it is sealed, has proper postage and international stamp. A messenger from the Building Messenger Center retrieves the mail between 5:15 and 5:30 and holds it at the Building Messenger Center to be picked up by "On the Fly" courier who delivers it to the U.S. Post Office. All international airmail packages weighing more than three (3) pounds must be delivered to a U.S. Postal agent in person. The copy center must be informed by 5:00 p.m. if such service is required.

Certified Mail

If proof of mailing is required for the certified mail, please complete the necessary forms for the Postal Service. Blank copies of those forms are available in the mailroom. The copy center must be informed by 5:00 p.m. if such service is required.

Express Mail

Express Mail Runs will be completed by a CSR in the evening at 6:00 p.m. The client should complete the necessary forms for the Postal Service and inform ARO by 5:30 p.m. If such service is required; however, this is usually a daily occurrence. Express mail must be received by the U.S. Post Office by 6:30 p.m. to guarantee next-day delivery. The Express Mail should have a client matter number and the name or initials of the sender for billing purposes. This information is recorded daily in a binder located by the mail machine in the copy center. Cab fare for express mail delivery to the Post Office is provided by the MH&M copy center manager. Ask for a cab fare receipt and, upon return, submit the receipt and change to the MH&M copy center manager or ARO manager on duty. The Post Office is located at the corner of Canal and Harrison (433 West Harrison). Take the escalators up to the second level – you may have to stand in line. Proceed to the teller, give them the envelope(s), they will process them and

DIRECTOR OF THE UNITED STATES PATENT AND TRADEMARK OFFICE

NOTICE OF DRAWING INCONSISTENCY WITH SPECIFICATION

The drawings filed 8/29/01 have been received. However, an inconsistency exists between the drawings and the Brief Description of the Drawings in the specification.

Figures 1A are listed in the Brief Description of the Drawings in the specification but not contained in the Drawings.

Figures 1F are contained in the Drawings but not listed in the Brief Description of the Drawings in the specification.

Applicant is required to correct the above-noted inconsistency within a time period of **ONE MONTH or THIRTY (30) DAYS, whichever is longer**, from the mailing date of this Notice, or within the time remaining in the time period set forth in the Notice of Allowability (Form PTOL-37) to file corrected drawings, whichever is longer. **NO EXTENSION OF THIS TIME PERIOD MAY BE GRANTED UNDER EITHER 37 CFR 1.136 (a) OR (b)**

Failure to correct the above noted inconsistency will result in abandonment of the application.

The file will be held in the Publishing Division to await the correction of the inconsistency.

Return Corrected Drawings/Specification to:

DOCKETING Checklist

DAILY

- ☐ **Express Mail Receipts** – match receipts with file, notify High Density of files sent back to Secretary
- ☐ **Daily Docket (Patent & TM)** – Patent: distribute to KKM, NC, SM, CB, CLB. TM: distribute to MC
Docket is run for following periods
Monday – from previous Sat thru Tuesday
Tuesday – Tuesday thru Wednesday
Wednesday – Wednesday thru Thursday
Thursday – Thursday thru Friday
Friday – Friday thru next Monday
- ☐ **Daily JMM Docket - Email** to X-team
Monday – from previous Saturday thru Tuesday
Tuesday – Monday thru Wednesday
Wednesday – Tuesday thru Thursday
Thursday – Wednesday thru Friday
Friday – Thursday thru next Monday
- ☐ **Incoming Mail** – open, date stamp and docket all incoming mail & faxes. Email incoming mail list to Fileroom
- ☐ **Missing Mail List** – update missing mail list with previous days mail and email to Fileroom
- ☐ **Outgoing Mail** – check and docket all USPTO mail
- ☐ **Daily Final Actions Due Report (Patent & TM)**– email to prosecution
Monday – run from previous Saturday to Monday
Tuesday to Friday – run for current day

WEEKLY

- ☐ **Weekly Docket** - every Friday run docket report for Saturday thru to following Sunday.
Print and Distribute via ARO to each attorney/secretary.
Distribute via EMAIL to: Don Pochopien
Janet McNicholas (and team)

MONTHLY

- ☐ **Monthly Docket** - run on (or as near as) 28th of each month. Run for period 1st day of next month to the 31st day of the 2nd month (so covers two month period).
Print and distribute via ARO to each attorney & secretary.
Distribute via EMAIL to: Jan Wiley (Ed Remus/J Barich)
Betsy Henschen (George Wheeler)
Robert Fieseler

DOCKETING PROCEDURES - INCOMING USPTO MAIL

POSTCARD

- Enter application number

FILING RECEIPT

- Change IPM Subs-status to Pending
- Check and compare IPM info relating to Serial number; Filing date; Title; Inventors; Projected publication date; and Priority data

Other Nos	Ext Files	Related Id	Title	Text
Filing Date	Related Party Info	Actions	Description	Inventors

i Maurie:

A problem arose in this application in which the claims were allowed and in which the issue fee was paid on 12/14/04. On 12/15/04, after the payment of the issue fee, the PTO objected for the first time to the original figures filed in 2001. I suspected that the Figures might be an issue because the latter were hand drawn. In the meantime, I ordered formal drawings from a draftsman for the newly filed 13879US02 application. We have these in house.

On 01/18/05 (yesterday), our docketing department first received the written objection dated 12/15/04 (See the attachment). I do not know how or why it took so long to arrive. However, it only had a 30 day period in which to respond that was not extendable. Hence, the application has gone abandoned. If the communication would have been dated 12/16, we would have lucked out with the weekend and MLK holiday, and could have filed it yesterday.

Course of Action:

We could draft a petition and/or Request to reinstate an unintentionally abandoned application with submission of new figures and an amendment under 1.312 correcting the numbering in the Brief Description of the Figures.

Alternatively, we have a pending continuation application. We could file another continuation application with a preliminary amendment and the new Figures. I believe that the refiling would be more cost effective. In the preliminary amendment, we could advise the Examiner as to what had occurred. I expect that we would get a Notice of Allowance if we get the same Examiner.

How should we proceed?

Donald

ENVELOPE.TXT

Don,

I will need to get some internal guidance on this one to get you a definitive answer. I have two questions/comments for you in the meantime...

(1) Do you think that the first option you mention below (petition to revive an unintentionally abandoned application) would get us the patent sooner? Based on my experience, I would definitely say yes, as a new filing, even a continuation, can linger without examination for at least a year. Petitions can be slow, but not that slow usually. Also we take the chance of getting a different examiner and/or the examiner changing their mind.

(2) I am a little confused on the cost issue. It appears to me that the petition route would cost much less in PTO fees (a little more than half as much), although maybe it is a lot more work for you guys and that makes the difference. Sorry but I don't know that much about your cost structure.

If you could provide me your input, that would be really helpful.

Thanks,

Hi Maurie:

The additional costs would relate to the cost of drafting the petition, and documenting our internal docketing as part of the petition. If we file it with an IDS up front, it seems to go faster.

There is a diligence requirement or reviving. Hence, we also need to establish that MHM and RTI acted diligently in seeking revival once we learned of the abandonment.

Yes, that all makes sense. Thanks a lot for the further info.

So, based on the requirements you mentioned, do you also think that it would take just as long to go this route (as opposed to a new filing)?

I know that one of the factors in the decision will be how quickly can we get the patent granted.

I am just trying to get all of our options fully laid out to present to upper management.

Lastly, is there a time frame for this decision? Please let me know.

Thanks again,

Hi Maurie:

Petitions in the PTO take 3 to 6 months before being granted. There is a 98% likelihood that it would be granted. The new continuation application would take 3-6 months to get a response from the PTO. There is about a 80% likelihood that there would be a first action allowance. The difference is that it would cost about \$2,000-3,000 to prepare the petitions. I could file the new application today. It would take me until next week to prepare the petitions and file them.

Donald

ENVELOPE.TXT

Don,

This is the unintentionally abandoned case.

After meeting with the management here and discussing the different options for this case, we have decided to go the petition route. I realize it will take you some time to get the petition together. Please give me an idea of when to expect it, if you can.

Also, we would like to have a chance to look at the petition before you file it please.

Thank you very much,

Maurie G. Baker, Ph.D.

Hi Maurie:

Petitions in the PTO take 3 to 6 months before being granted. There is a 98% likelihood that it would be granted. The new continuation application would take 3-6 months to get a response from the PTO. There is about a 80% likelihood that there would be a first action allowance. The difference is that it would cost about \$2,000-3,000 to prepare the petitions. I could file the new application today. It would take me until next week to prepare the petitions and file them.

Donald

Yes, that all makes sense. Thanks a lot for the further info.

So, based on the requirements you mentioned, do you also think that it would take just as long to go this route (as opposed to a new filing)?

I know that one of the factors in the decision will be how quickly can we get the patent granted.

I am just trying to get all of our options fully laid out to present to upper management.

Lastly, is there a time frame for this decision? Please let me know.

Thanks again,

Maurie G. Baker, Ph.D.

Hi Maurie:

The additional costs would relate to the cost of drafting the petition, and documenting our internal docketing as part of the petition. If we file it with an IDS up front, it seems to go faster.

There is a diligence requirement or reviving. Hence, we also need to establish that MHM and RTI acted diligently in seeking revival once we learned of the abandonment.

Donald

Don,

I will need to get some internal guidance on this one to get you a definitive answer. I have two questions/comments for you in the meantime...

(1) Do you think that the first option you mention below (petition to revive an unintentionally abandoned application) would get us the patent sooner? Based on my experience, I would definitely say yes, as a new filing, even a continuation, can linger without examination for at least a year. Petitions can be slow, but not that slow usually. Also we take the chance of getting a different examiner and/or the examiner changing their mind.

(2) I am a little confused on the cost issue. It appears to me that the petition route would cost much less in PTO fees (a little more than half as much), although maybe it is a lot more work for you guys and that makes the difference. Sorry but I don't know that much about your cost structure.

If you could provide me your input, that would be really helpful.

Thanks,

Hi Maurie:

A problem arose in this application in which the claims were allowed and in which the issue fee was paid on 12/14/04. On

12/15/04, after the payment of the issue fee, the PTO objected for the first time to the original figures filed in 2001. I suspected that the Figures might be an issue because the latter were hand drawn. In the meantime, I ordered formal drawings from a draftsman for the newly filed 13879US02 application. We have these in house.

On 01/18/05 (yesterday), our docketing department first received the written objection dated 12/15/04 (See the attachment). I do not know how or why it took so long to arrive. However, it only had a 30 day period in which to respond that was not extendable. Hence, the application has gone abandoned. If the communication would have been dated 12/16, we would have lucked out with the weekend and MLK holiday, and could have filed it yesterday.

Course of Action:

We could draft a petition and/or Request to reinstate an unintentionally abandoned application with submission of new figures and an amendment under 1.312 correcting the numbering in the Brief Description of the Figures.

Alternatively, we have a pending continuation application. We could file another continuation application with a preliminary amendment and the new Figures. I believe that the refiling would be more cost effective. In the preliminary amendment, we could advise the Examiner as to what had occurred. I expect that we would get a Notice of Allowance if we get the same Examiner.

How should we proceed?

Donald

Attorney for Applicants

AMENDMENT AFTER PAYMENT OF THE ISSUE FEE

Mail Stop Petition
Commissioner for Patents
P.O. BOX 1450
Arlington, VA 22313-1450

Sir:

After payment of the Issue Fee on 12/14/04 and responsive to the Official Communication of 12/15/04, for which a substitute figure and amendments were due 01/15/05, and for which no extensions of time were possible, Applicants make the following amendments to the Brief Description of the Figures that were requested in the Official Communication:

Amendments to the Specification: page 2

Remarks: page 3

Delete the paragraph at page 4, lines 2-5 of the specification [i.e., ¶¶ 13-15 of the published application] and substitute therefor the following paragraphs:

~~FIG. 1 shows~~ FIGS. 1A-1F show diagrams depicting different shapes and constructions of an implant in accordance with the subject invention.

FIG. 1A shows a bone-tendon-bone type implant.

~~FIGS. 1B-E represent~~ FIGS. 1B-1F provide views of an implant comprising a specific assembled bone block.

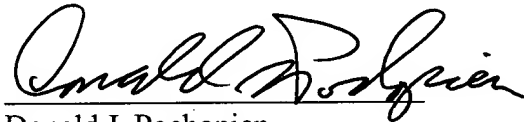

REMARKS

The amendments to the specification do not add new matter. As requested in the Official Communication dated 12/15/04, the amendment to the description of FIGS 1A – 1F, now properly refers to the appropriately labeled figures.

Respectfully submitted,

MCANDREWS, HELD & MALLOY, LTD.
